The Annual Appraisal Process

UD Annual Appraisals are implemented in the UDAcademe system. UDAcademe is an online faculty activity reporting system. The system provides a single convenient place for you to archive your achievements, including data about teaching, research, and service activities reported as part of your annual review process.

This will include The Appraisal process; how to prepare the Annual Review and Planning Report; how to preview the Review and Planning Report; how to complete, save, and submit the Review and Planning Report; how to edit your Report if needed following your meeting with your Department Chair; and how to respond to the Chairperson’s review.

As defined in the UD Faculty Handbook, the appraisal process is a three step process in which:
1. the faculty member prepares and submits their self-appraisal and planning report,
2. the Department Chairperson conducts an in-person interview and prepares the evaluation, and
3. the faculty member signs off indicating that the evaluation has been discussed with their Chair.

The evaluation period is the 12 months since the last review. This is typically Spring through Fall (or Winter).

Department Chairs are encouraged to set a deadline for their faculty to submit their input which allows adequate time for in-person meetings and completion of the review for all faculty in their department no later than March 31.

It is optional to provide a self-rating score. You can type a number from 1-9, with 1 meaning unsatisfactory to 9 meaning excellent, or type NA for not-applicable, or NR for not-rated.

If you did not actually teach a course listed, check the “Course Not Taught” box. If a course is missing, click “Add Courses Taught” to open a window in which you can enter course information.

If a course is missing, click “Add Courses Taught” to open a window in which you can enter course information. You will need to complete the required fields including Course Prefix and Number, Section, and Enrollment.

PLEASE NOTE: If your entry is not consistent with the course catalog (e.g., you indicate a course is DISC when it is in the catalogue as LEC then you will get an error.

**Add Attachments for Each Course**

Choose file from your computer and then select the type of file. Then upload the file. Repeat for any additional files.

The advantage of attaching documents here is that they will be here for subsequent reviews such as Contract Renewal or P&T and will be available to program accreditation reports as appropriate to your discipline.
